Creating the Essence of Fall with Colored Pencils

Color pencils offer so much when creating art! Join us for a creative morning where we delve into the versatile world of colored pencils! We will be exploring the properties of colored pencils to create depth, control, and brilliance in our artwork. You'll learn various techniques of blending, layering, and creating highlights, as well as various methods to enhance your drawings.

This class is designed for everyone, from beginners to advanced artists. Whether you're new to this medium or looking to have fun while learning new techniques, we will find this class enriching and fun. After learning these skills, we will apply what we have learned to create a fall scene to bring home and enjoy throughout the season.
